

(Physical Connection - pdf)

1. Types of mediums?

Radio frequency - wireless radio

Electronic frequency - UTP cable

Light signal - FOC (Fiber optic cable)

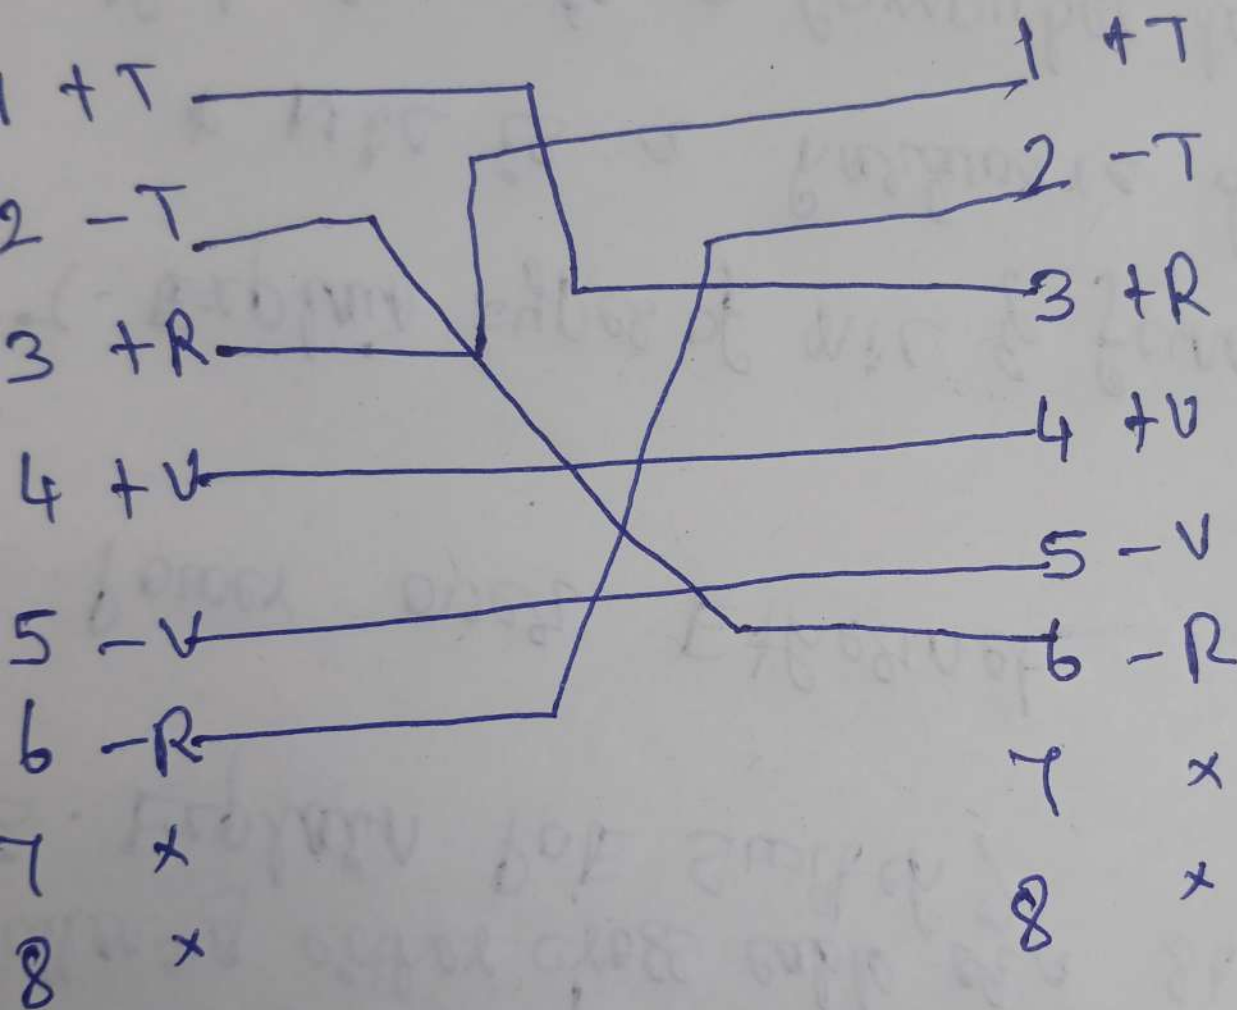

2. write down the switch 8 pins

1	+R
2	-R
3	+T
4	+V
5	-V
6	-T
7	*
8	*

Device	+T - T	+R - R
PC	1 2	3 6
Router	1 2	3 6
Switch	3 6	1 2

3. connect the cable between two devices

Router

Its a Cross Cable Connection

4. Explain Auto MDIX?

To connect (T+ to +R) automatically detects and swaps the T+ and R+ pairs allowing either cross cable or a straight cable

5. Explain PoE Switch?

Power over Ethernet

7. Explain types of NIC & functions?

* NIC is a hardware device

that connects a computer to a network, It sends and receives data from a unique mac address

* It convert binary into electrical signal

and electrical into binary electrical signal

4. Explain Auto MDIX?

To connect (T+T to +R) automatically detects and swaps the T+ and R+ pairs allowing either cross cable or a straight cable

5. Explain PoE Switch?

Power over Ethernet

7. Explain types of NIC & functions?

* NIC is a hardware device that connects a computer to a network, It sends and receives data from a unique mac address

* It convert binary into electrical signal and electrical into binary electrical signal
